

CTP environnement group, specialist in industrial chemical cleaning and in the provision of mobile effluent treatment units has been offering its industrial and environmental services in the United Kingdom for more than 20 years. Since February 2019, with its UK branch, the level of services has been extended with the deployment of a local workforce and its inhouse equipment.

To pursue its growth, our UK branch is seeking an:

Operational Coordinator (M/F)

International Internship Program (VIE)

Location: Manchester, United Kingdom

Duration: 12 months

After an initial training period at our headquarters in France, you will assist the Country Manager and Business Development Managers in overseeing small to medium-sized projects across the UK. This role requires frequent travel, with approximately 40% of your time spent on-site.

You will join an agency of about 10 employees and will work directly under the responsibility of the branch manager.

Main Responsibilities:

- Collaborate with clients to prepare, plan, and monitor projects, including workforce and supply planning, equipment checks, mobile unit management, and coordination with suppliers and subcontractors.
- Draft and maintain technical documentation and ensure proper follow-up with local teams.
- Visit client sites to gather information and prepare technical proposals.
- Making sure that the projects are compliant with company's standards (ISO/ISN certifications).
- Liaising with direct manager for reporting, following-up, cost control and management of projects.
- Liaising with various background clients.

Required Profile:

- Fluency in English (both written and spoken).
- Degree in Chemical Engineering, Mechanical Engineering, Water Treatment, Industrial Maintenance, Industrial Engineering, or a related field.
- Ideally, a first experience in a technical role within the industrial sector.
- Strong IT skills.
- Excellent communication skills and business acumen.
- Ability to work in a team with openness to diverse cultural environments.
- Initiatives, time management as well as problem solving skills will be key to this role.
- Clean driving licence.

Compensation Package :

- Remuneration: According to the Business France VIE scale.
- Benefits: Company-provided van, phone, and laptop.
- Upon successful completion of your VIE period, you will have the opportunity to transition to a local contract.
